

ELIGIBLE GAME FISH

The following species are the only game fish that can be weighed in for points in the game section. IGFA Game Fishing Rules Apply.

All mackerel and tuna species, wahoo, samson fish, amberjack, tailor, cobia, yellow-tail kingfish, dolphinfish, pink snapper, mulloway and trevally.

In the unlikely event that a sailfish or marlin is hooked, a digital photo and free release will be recognised. (Marlin species 1000 points, sailfish 500 points)

ELIGIBLE BOTTOM FISH

All edible demersal scalefish including the above game fish except mackerel, wahoo, tuna, billfish and dolphinfish. Sargent baker is not considered edible. Please only weigh-in what you would normally keep and eat.

CONDITION OF FISH

It will be hot in February. Please ice your fish & separate them into individual anglers bags for the weigh-in. Fish not iced well and in poor condition may render disqualification of the angler on the day. The Classic Committee will decide and their decision is final. Hessian bags not permitted as they are unsatisfactory for keeping fish in good condition.

WEIGH-IN TAGS

A team member must pick up a weigh-in tag from the weigh-in station at the Kalbarri Motor Hotel before 3.15pm (river) 4.00pm (Ocean) on Fri. & Sat. And before 2.00pm (river, 3.00pm ocean on Sunday) (Only one tag per boat needed). Tags will be available after 2pm on Fri, Sat; 1.00pm Sunday. No tag no weigh!

CRAY ROPES

Loss of hooks and weights on cray ropes can be very hazardous to deckies on cray boats with the hooks and weights swinging aboard. If you lose tackle snagged to a cray rope, please tie a knot in the rope or a rag to the rope or something to warn the deckie and avoid serious injury.

RAMP RAGE

We agree that the boat ramp is sub-standard and we have tried everything to improve this facility. Unfortunately there is nothing that can be done until the sandspit has reformed thus stopping the shifting sand. An alternative ramp for larger boats is available east of the boat pens. Engage 4WD to retrieve boats! Please be patient and help out your fellow competitor when you can. If larger boats wish to moor in the river or rent a boat pen, please contact local facilities manager, Barry Carter, on 0427 914 712 for details.
